

Though the water boils  
Don't, don't take off the heat  
Can't find the spoon that we once had  
The sugar cubes will melt no more

We belong as two together (x12)  
We belong as two together...together

How can you take my soul  
Stop...I need a new beat  
Can't find the spoon that we once had  
The sugar cubes will melt no more

We belong as two together (x12)  
We belong as two together...together

We belong as two together (x12)  
We belong as two together...together
