

She's in ecstasy
Her hollowed sky
Pours down heavenly
And fakes desire
I've been living here in the red
I've been feeling I'm dead again
We've been bored before...

I have never felt so alone
since the times we left ourselves half-past gone
We've been living here up against the red
I've been feeling I'm dead again

We've been bored before...
We'll be bored again...
We've been bored before and again

She's in ecstasy
Her hollowed sky
Pours down heavenly
And fakes desire
I've been living here up against the red
I've been knowing I'm dead again
We've been bored before...
We'll be bored again...

Shadows to the wall, Shadows to the wall
Shadows to the wall, Shadows to the wall
