

Time is healing, I'm ahead
Find a reason once again
Take a moment out of time
I'll be standing back behind

On a wing, so out of line
Takin in, so out of time
All it takes is living
I want to fly
I've never known fate
I've never known your name
I've never known fate

Sound the season in my head
I'll be better off...again
You'd rather die this evening
You would never know
Up ahead and far below

On a wing, so out of line
Takin in, so out of time
All it takes is living
I want to fly
I've never known fate
I've never known your name
I've never known fate

Someone take me home
Get me out of here
Someone take me home
Get me out of here
Someone take me home
Get me out of here
Someone take me home
Get me out of here

Oh, oh, get me out of here
Oh, oh, get me out of here
