

The don't want to understand
Say what you say when you say what you've gotta say
Do you fear what you hear are you gonna fear
Do you know what you know when you gotta know
No, No, No
Feel what you feel when you feel what you're gonna feel
Say what you say when you say, gonna gonna say
Do ya hate, don't ya hate what you've gotta hate
Don't hate, hate

You, bring me on
Bring me on

Lie when you love when you lie when you're gonna love
Do you love on the ground when you're underground
In your head, in your head, are you gonna feel
Dead, Dead, Dead

You, bring me on
Bring me on
Bring me on
Here we go
They don't want to understand

You, bring me on
Bring me on
Bring me on
Bring me, Bring me, Bring me, Bring me
Bring me, Bring me, Bring me
