

Hey, baby. You think you got the power.
Come show it to me.
Hey, baby. You think you are a power....
Little girl, I know you're in a frenzy.
What's your pleasure or pain?
It don't matter to me anyway.
Come down. I know you, girl.
Come down.... Come get your love.
Come down. You're bendin' like a fire.
Goin' lose control.
Little girl, you know I'm in a frenzy.
What's your pleasure or pain?
It don't matter to me anyway.

If I can't have you, no one will.
And I will have you, just be still.

Come down.... Come get your love.
Come down. You're bendin' like a fire.
Goin' lose control.
Little girl, I know you're in a frenzy.
What's your pleasure or pain?
It don't matter to me anyway.
If I can't have you, no one will.
And I will have you, just be still.
If I can't have you, no one will.
And I will have you, just be still.

If I can't have you, no one will.
If I can't have you, I will kill.
