

I've been out on my own  
I've been getting what's mine  
I watch you grab what you can like crazy  
Because your all out of time

Girl your living a dream  
But You know it too well  
Cause there's no one who  
And you're living in Hell

Well they said you been good  
And they said you been bad  
I like to laugh  
You make me cry when you're sad

I live in a dream  
But you're living in hell  
And there's nothing to do  
Cause I know it too well

I've been out on my own  
I've been doing real fine  
I want you get what you can now baby  
Seems you're all out of time

Girl your living a dream  
And its gotten you down  
And there's no one to help  
Cause there's no one around
