

I remember the first time
How could I ever forget
It was only the beginning
Of everything I'd ever get

Here's to ancient times and distant memories
To the most lavish feast my mind has ever seen
I tasted your wine, then I drank your soul
(I) saw through your kaleidoscope

Blue Sun
Blue Sun
I never should have come
Never should have left
Blue Sun

These emotions can't be mine
I don't want to feel again
Fill the void just one more time
This will all be over soon

I've begun to hear the siren song again
Dreaming in a pretty shade of nothingness
Transcendental melodies putting me to sleep
And I pray the Lord my soul to keep

Blue Sun
Blue Sun
I never should have come
Never should have left
Blue Sun
