

I'm tired of being alone she says  
As she walks away from my number  
Tired of being alone as I walk in her home

You said you'd never be with someone you love  
Someone you think is thinking of you  
Someone who goes through the things you go through  
You said you'll never be that one special guy  
In some subtle day in some subtle way  
And you try and you try and you go insane

I'm tired of being alone, she says  
As she walks away from my number  
Tired of being alone as I walk in her home  
As I'm walking her home, she's tired of being alone

Whoah

I'm tired of being alone, she says  
As she walks away from my number  
Tired of being alone as I walk in her home  
As I'm walking her home, she's tired of being alone  
Walkin' her home, she's tired of being alone
