

When the lights go down  
You come here again  
you come here even though your body's at its end

You call my name  
Right across my heart  
I'll hear it and I'll be right back there at the start

Chorus:

Dont say you'll come here again  
Cause I wont be let down  
I got a message, I've got to get it back to you now  
One more time

Verse:

But it feels so sweet  
Looking out for you  
I'm leaving even though I know it wont come true

Chorus:

Don't say you'll come here again  
cause I wont be let down  
I got a message, I've got to get it back to you now  
One more time

Bridge (with lead-ins):

Chorus:

Don't say you'll come here again  
cause I wont be let down  
I got a message, I've got to get it back to you now  
One more time

Verse:

When does it end?  
When the lights go down  
When you sleep yeah yeah

Chorus:

Dont say you'll come here again  
Cause I wont be let down  
I got a message, I've got to get it back to you now  
One more time  
One more time  
One more time...
