

Steam slowly builds up now
Between my ears there is fog now

The soothing sounds of your shower make
My life this hour

I guess I must have messed it up
I guess I must have messed it up
I guess I must have messed it up
When I gave you the ladyshave

Your heart's a pumping bass
And I like that
My heart is missing pace
And I like that

A ladyshave
I can see now
A ladyshave
Now I know how
Now I know

I guess I must have messed it up
I guess I must have messed it up
I guess I must have messed it up
When I gave you the ladyshave

A lay a lay a lay a ladyshave
I can see now
That to do to do to do the ladyshave
Needs a know-how

I guess I must have messed it up
I guess I must have messed it up
I guess I must have messed it up
when I gave you the ladyshave
