

You've done for me everything I have ever dreamed,
you are a miracle in my eyes,
how do I ever say to you thank you...
Everyone I have ever loved has left me,
you are a friend to me you've helped me see,
that I could leave the past behind so,
I need you,
I breathe you, you breathe me,
so high,
if I could I would be just like you,
so high.
If only you could be the one that I've dreamed of,
I'd have the perfect world inside my mind,
for now I'm on my own alone,
and I'll dream...,
I need you
I breathe you, you breathe me,
so high,
if I could I would be just like you,
so high, so high,
just like you,
so high, so high.
I need you
I breathe you, you breathe me,
so high,
if I could I would be just like you,
so high,
so high.
