

When I think of you, I think  
I'm just a fool with handsome drink  
It never fails that I can't sleep  
Dreaming of you, I mull and sink

I can't wake up (I don't know what to do when I'm with you)  
I can't wake up (I don't know what to do when I'm with you)  
I can't wake up  
I can't wake up  
I can't wake

If I could think of things to say  
I don't think that I'd act this way  
It never fails that I can't speak  
I hear your voice and I go weak

I can't wake up (I don't know what to do when I'm with you)  
I can't wake up (I don't know what to do when I'm with you)  
I can't wake up  
I can't wake up  
I can't wake
