

Night falls
I fall
And where were you?
And where were you?
Warm skin
Wolf grin
And where were you?
I fell into the moon
And it covered you in blue
I fell into the moon
Can I make it right?
Can I spend the night?
High tide
Inside
The air is dew
And where were you?
While I
I died
And where were you?
I crawled out of the world
And you said I shouldn't stay
I crawled out of the world
Can I make it right?
Can I spend the night
Alone?
