Scout - Never Never - текст песни

On a trap door
Under every breath

You see, you fooled everyone
If you don't know now
What you're in it for
Well you'll see you fooled everyone

Time will tell, no reason for you
I do my best, don't need to assure you
That I was wrong, should never have told you
No, never, never, never, never
No, never
No, never

No, never

On a trap door
I wrote this down
What's it to you, see you fooled everyone
If you don't know now

What you are in it for
Well you'll see you fooled everyone
Time will tell, no reason for you
Now I do my best, don't need to assure you
That I was wrong, should never have told you
No, never, never, never, never
No, never

No, never
No, never

Going too far
Going too far
Going too far
Going too far
Going too far
